

## Resident Health

- Temperatures checked 2x/day
- 6-ft distance during meals & activities
- Screen essential visitors
- Follow state/local guidelines
- Masks worn during visits or essential outings
- Observe physical & emotional changes
- Proper hand hygiene

## Staff Health

- Train staff on Covid-19
- Temperatures checked 2x/shift
- Do not come to work if sick
- Provide necessary personal protective equipment
- Encourage flu shots and regular testing for Covid-19

## Physical Environment

- Enhance daily cleaning protocols
- Sanitize all high-touch areas 3x/daily
- Spread out seating at all communal gathering spaces
- Set up hand sanitizer stations
- Put up informational signs about Covid-19

## Preparedness

- Create plan if/when Covid infection happens within the facility
- Work closely with State and Local agencies for resources and support
- Continue building stockpile of PPE and cleaning supplies
- Create staffing plan to address any shortages due to illness
